

Harshad Hindlekar

LEAD FRONTEND DEVELOPER | 4 YEARS EXPERIENCE

EXPERIENCE

Cloudfinch, Mumbai — *Frontend Developer II* [Nov 2024 - PRESENT]

- Led migration to Vue 3/Nuxt with TypeScript, improving development efficiency by 40% and maintainability across the platform
- Built 3D real-time analytics dashboards with Highcharts, delivering actionable insights for stakeholders across 50+ facilities
- Developed Google Maps integration and live data tracking system for 100+ BPCL sites, enhancing operational visibility
- Secured platform with custom 2FA (Google Authenticator, CAPTCHA), Nuxt Security, strict RBAC; enabled geofencing for India-only access, reducing security incidents by 95%
- Designed responsive, device-agnostic dashboards, resulting in 30% higher user engagement across mobile and desktop

Vivanet, Pune — *Software Engineer II* [Sept 2022 - oct 2024]

- Spearheaded "NorthStar" career guidance web application using React, Tailwind CSS, Azure, and OpenAI APIs—guided users with data-driven, AI-powered career pathways, now active for 10,000+ users with 4.8-star rating
- Engineered "All About Artists" creator showcase platform with OTPless authentication, Instagram Graph API, and analytics dashboard using React, TypeScript, Laravel, and MySQL
- Developed multiplayer Tower Defence game (Java Processing), applying robust object-oriented design principles and performance optimizations for real-time gameplay
- Implemented GA4 event tracking and ran A/B tests across user flows to measure engagement and guide UX improvements.
- Co-architected "Palate" food marketplace backend using AWS Cognito, S3, Lambda, GraphQL, and Spring Boot, improving data throughput by 50% and reducing API response time by 35%

SKILLS

HTML5, CSS3, JavaScript (ES6+), React, Vue.js 3, Nuxt.js, Next.js, TypeScript, Tailwind CSS, Material UI, Bootstrap, Responsive Design, Progressive Web Apps, Node.js, Express.js, Python, Django, Java, Spring Boot, REST APIs, GraphQL, Microservices Architecture, AWS (Amplify, Route 53, Lambda, Cognito, S3, EC2), Git, GitHub Actions, Google Analytics 4 (GA4), A/B Testing, Power BI,

CERTIFICATIONS

- [Next.js \(Top 10%\) – Credmark](#)
- [React Certification – Cutshort](#)
- [Your Certificate of Attendance AWS Summit India 2022](#)
- [3 months fullstack internship at vivanet](#)

EDUCATION

Bachelor of Science in Information Technology University of Mumbai

2019 – 2022

PROJECTS

[Rampart AI EHS Platform \(Cloudfinch\)](#)

Engineered unified EHS, ESG, Audit and Risk Management platform using Next.js 15, shadcn/ui, and Tailwind CSS. Built responsive, accessible user interfaces enabling real-time risk intelligence and compliance management across global industries including Energy, Manufacturing, Healthcare, and Aviation sectors.

[BPCL HSSE Platform \(Cloudfinch\)](#)

Modernized nationwide safety management system for Bharat Petroleum Corporation. Built real-time dashboards, live maps with Google Maps API, 3D analytics with Highcharts, secure RBAC, and comprehensive event management—adopted by all BPCL refineries and 100+ facilities.

[CargoGen Logistics Platform \(cloudfinch\)](#)

Developed comprehensive logistics management system with shipment tracking, port-to-port routing using Searates API, real-time status updates, and inventory management.

[SkillJourney Career Platform \(Vivanet\)](#)

Architected and deployed AI-powered career guidance platform with React, OpenAI integration, Azure cloud services, delivering personalized career pathways for 10,000+ active users.

[All About Artists \(Vivanet\)](#)

Launched full-featured creator showcase platform with OTPless authentication, Instagram Graph API integration, analytics dashboard, and content management system.

[Palate Marketplace Backend \(Vivanet\)](#)

Co-architected GraphQL microservices architecture (spring boot) with AWS Lambda, Cognito, S3, achieving 50% improvement in data throughput and 35% reduction in API latency.

[Personal Book Manager](#) (Personal Project)

Built and deployed a full-stack reading-list application using Next.js, Express, MongoDB, and JWT authentication, featuring book management, status tracking, dashboard statistics, and responsive UI.
